

The **UNFAIR** Advantage

of Collision Shops

COMPLIMENTARY WEBINAR

The collision industry is entering one of the fastest periods of change we've ever seen. AI, shifting claims volume, rising customer-pay work, and total loss trends are reshaping the landscape in real time.

The reality? Shops that understand what's coming and act early - will gain a massive, almost unfair advantage.

In this webinar, you'll learn:

- What's really driving the drop in claims volume
- Why customer-pay is rising (and how to capitalize on it)
- How total loss trends are changing the game
- What leading shops around the world are doing right now to stay ahead

Join Ryan Taylor, CEO of BodyShop Booster, as he breaks down what's happening, what it means for your business, and the specific actions you can take today to get ahead of the curve.
